BLISTENS WITH GOLD REPORTED WORTH \$180,000 A TON.

its High Grade Ore, Shows Riches Far from Exhausted.

Silver City, N. M .- Another rich strike of gold ore is reported from Pinos Altos which promises to be a repetition of those made recently by Bell & Wright and which produced for them something over \$50,000 worth of high grade ore. The present strike was made by John Oglesby, one of the pioneer miners of the Pinos Altos dis-trict, on ground adjoining that from which Bell & Wright took their big values. A little of the good stuff was ore was taken out that will be worth. at a conservative estimate, \$100,000 per ton. Since that time more of this high grade has been found and since thin stringer, as was the case on the Bell & Wright ground, it looks as though the main core of the streak was yet to be reached.

The strike was made on the Langston property, which is owned by the C. & O. Mining and Milling Company. When Bell & Wright ran into the high grade gold ore last fall it was near the side of their property which adjoined the Langston and, in fact, they were working so close to the line that a law suit was imminent for a rich ore was found. Mr. Oglesby at that time started to sink a shaft across the line on the Langston. He has been getting out good paying ore for most of the distance of 270 feet which he has sunk. Reaching about the level of the other strikes he com menced to tunnel back into the claim and it was at a distance of forty feet from the property line that the present strike was made.

### Suicides After Wounding Wife.

Taos.-Antonio Santistevan is dead by his own hand and his widow is suffering from a flesh wound in the shoulder as the result of an insane outbreak by the young man-only twenty-three years old-following a prolonged period of sheepherding in Colorado which it is believed helped to unbalance a mird with a hereittary taint of insanity. The tragedy oc-curred at the Ortega residence oppo-site the Kit Carson home. Santiste-van, whose wife had left him because of his cruelty and frequent threats of killing, came up on the woman from behind, fired a six-shooter into her body and then fired a second bullet into his own brain, dying instantly.

Former President of Mexican Republic Early Re bilities of Man Who Practically Succe in Power.

Has Seen Hard Service, and From the First Has Boon Re as a Rutidess and Determined Man-Seemingly Knows No Quality of Mercy.

Once intended by old Porfirio to be second Dias in Mexico, now, like to former chief, a fugitive from the wrath of his compatriots, Victoriano Huerta sees himself at sixty forced to resign the presidency of his country. He will, it is believed, go to Europe. where, like other Latin Amer residents, he will end his days with ittle enjoyment save that of reminis

Huerta was born to wealth. Unlike Dias, who is of plebelan origin, a mongrel, mostly Indian, Huerta comes of one of the most aristocratic lies in Mexico.

He was born in Chibushus, with which state the Huertas have long been identified, in 1854, or 1857, re-ports differ. At the age of seventeen the aristocrat was appointed by Diaz then ruling Mexico with an iron hand. to the military school of Chapultepec

Huerta served his four school years passably well. He was neither at the head nor the foot of his class. He was graduated with bonors, being about the tenth in a class of nearly hundred, and immediately went to join a regiment on the west coast as a second lieutenant of engineers.

When President Diaz began his reorganization of the Mexican army Huerta was promoted captain of engi neers, and while holding this rank de vised the plan for a Mexican general staff corps. He was an active member of the military map commission created to draft a staff map of Mexico on a large scale, and he had charge of all the topographical work of the commission, leading exploring and surveying parties over the wildest regions of the

President Diaz soon after began to place confidence in Huerta. He believed he saw in the lieutenant colonel of engineers, to which rank the toldier had succeeded, traits which would make him a worthy successor in the executive chair. Huerta was placed in charge of a Station in Matanzas, far removed from the capital. There plots could be easily hatched, and Diaz was oath to leave in charge any officer in whom he had not implicit trust.

Huerta was barely thirty-five when this incident occurred. One afternoon while he was riding with an escort of but three men through a mountain pass in the vicinity of his station, six or seven masked men stepped from roadside and covered his little be charged by common carriers on ty. Naturally they threw up their

bers of the band of Flores Zegaza, the bandit who kept the community on the feather edge. It was his habit to descend on the towns along the coast and levy toll whenever hunger or caprice impelled him to do so. Huerta soon stood in front of Zegaza's but, an adobe dwelling, much dilapidated, far up the mountain.

There Zegaza made the proposition which was not at all unusual in Mexico then, and which is, in fact, quite the vogue today. He proposed that Huerta should keep him informed as to the days when the military force would be marching in a direction opposite from the town.

On such days Zegasa would make it point to call, with his followers, and collect from the natives such stores of money and clothes and food and wine and tobacco as had accumulated

Zerasa was not at all surprised to have Huerta accept his proposition to receive in return for the promised information a share of whatever loot fell Ten days later Huerta sent word to

Zegasa that he would be away from the station on the following Thursday. Promptly on Thursday the bandits would be no opposition except from the sporadic popular of the overfright-ened storekeepers. As they turned emed storekeepers. As they turned into the main street, discharging their revolvers to frighten every one away, a squad of Huerta's soldiers closed in

In the second Felix Diss revolution, which resulted in the overthrew of the Madero government, Huerta was immediately called to active com the senior ranking general in the capital. He escorted dero from Chapultepec castle to the fighting and was placed is entire en mand of the forces of the govern He directed the government troops during all the subsequent lighting and the conduct of these operations fed to severe criticism on the part of Made-

It was charged that he did not carry out the operations with any spirit and that he disobeyed the commands of President Madero. It is said that be-fore Blanquet entered the city the generals had a conference at which the fate of the Maderos was scaled.

Huerta was the moving spirit in the consummation of the plot that result-ed in the seizure of the person of President Madero, his brother, Gustave, and Vice President Jose Pine Saures. The assassinations of the Maderos and Saures followed, and in the meantime Huerta, with the mili-tary behind him, had been recognized

as the provisional president.

Huerta at once sought recognition of the United States, for it is understood in Latin-American countries that none of their presidents can hold office long without being recognized by the American government. President Wilson, however, refused to treat Huerta as chief executive of Mexico

In the meantime, General Carranse, the successor of Madero in the dream ning over the North. His military commander, General VIIIa, repeatedly defeated the federal forces. Practical ly all of the North came under the constitutionalist sway. In the South Zapata held out against House

Then the United States came down upon him, seizing the city of Vern Crus as a result of an affront to the Stars and Stripes. Mediation at the instance of Argentina, Brazil and Chile followed with no satisfactory results

## HAVE FAITH IN CARBAJAL

Huerta's Successor a Civilian and a Man of Acknowledged Probity— His Honorable Career.

Mexico City.-Francisco Carbaial forty-four years old, a native of the state of Campeche, and a lawyer.

Almost ever since the start of his career he has occupied posts in the judiciary. In the Madero administration he was a senator, but relinquished his post to re-enter the su-preme court, of which he was chief justice at the time General Huerta appointed him minister of foreign re
